

**KOCAER STEEL  
STAKEHOLDER PARTICIPATION POLICY**

## Kocaer Steel

In order to carry out an open, transparent and constructive communication policy with its stakeholders, and to create a guide for all stakeholders by explaining the framework and principles of stakeholder engagement processes;

- Provides a technically and culturally appropriate approach to communicate accurately with all key stakeholders,
- Ensures adequate and timely information sharing about the activity and its potential to positively or negatively impact stakeholders,
- Provides adequate opportunity for stakeholders to express their views and concerns at all stages of the life cycle of the relevant activity,
- Establishes a positive working relationship with stakeholders,
- Obtains the opinions of stakeholders and includes them in the analysis while creating and updating the Prioritization Matrix, which is the most important step of the Sustainability Strategy and Roadmap,
- By constantly engaging in dialogue with stakeholders through a transparent and effective communication policy, the prioritization matrix is developed to meet stakeholders' expectations and needs.
- The prioritization matrix is recreated at least every 2 years. The Board of Directors and the Sustainability Board have the authority to shorten this period.
- In addition to these mechanisms, stakeholders can contact the Company at any time regarding any issue concerning the Company using the contact information below.
